California Democratic Party Statement of Purpose

Democrats are leading the charge for a strong California economy where everyone has a chance to get ahead.

Under the leadership of Gov. Jerry Brown, Democrats have delivered a balanced budget for five straight years, stopped the cuts to education, and expanded access to affordable health care for families.

Democrats want to keep college affordable for the middle class and win back the California dream.

We believe that schools and local public safety are important priorities that must be protected.

We are working to fight global warming, protect communities from pollution, and increase investment in renewable energy.

Democrats know that our state works best when all Californians are given the same opportunity to succeed, no matter their race, religion, ethnicity, sexual orientation, or national origin.

With your help, Democrats will continue to lead the charge.
